CAREER OBJECTIVE

A passionate and detail-oriented computer science graduate looking for an entry-level position in software development where I can apply my programming skills and continuously enhance my knowledge.

EDUCATION

BCA - Government Arts & Science College | CGPA = 7.8 **2021-2024**

MCA- Dhanalakshmi Srinivasan Engineering College |CGPA =7.9 **2024-2026**

TECHNICAL SKILLS

Database (SQL)

- Proficient in writing efficient SQL queries to retrieve, manipulate, and analyze data from relational databases.
- Strong understanding of Subqueries, Joins (INNER, LEFT, RIGHT, FULL), and their practical applications.
- Experienced in using SQL statements including DDL, DML, and DCL commands.

PYTHON

- Strong understanding of Python fundamentals and OOP **concepts**.
- Good knowledge of conditional statements, loops, and functions.
- Ability to write efficient Python programs using collections and exception handling.

HTML, CSS, JavaScript

- Strong knowledge of HTML concepts such as lists, tables, forms, semantic elements, media, and iframes.
- Proficient in CSS Styling, box model, positioning, firebox, grid, transitions, animations, and responsive designing.
- Solid Understanding of JavaScript function, Strings, arrays, Objects, BOM, DOM, events, Promises, Async/Await, APIs (Fetch API, REST APIs), and working with JSON data.

ReactJS

- Ability to create and manage custom hooks for reusable logic.
- Experienced in building reusable functional components and managing UI using Props and CSS.
- Hands-on experience with React Hooks such as useState, useEffect, useContext, useCallback, useMemo, useNavigate, and useParams.

PROJECTS

AI-BASED MENTAL HEALTH DETECTION SYSTEM

- Developed an **AI-based Mental Health Detection System** using Machine Learning..
- Built a model to **analyze user inputs and identify potential mental health conditions**..
- Implemented **data preprocessing, model training, and prediction** for accurate results.
- Developed a responsive user interface using HTML, CSS, JavaScript, ReactJS, and Bootstrap for the AI-based mental health detection system..

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I understand that any misrepresentation or false information may lead to the cancellation of my candidature.
